MAR-T54

Disinfectant • Cleaner • Mildewstat • Fungicide • Sanitizer • Deodorizer • Virucide
Industrial - Institutional - Hospitals - Homes - Schools

EPA REGISTERED • READY TO USE

MAR-T54 is a one step, ready-to-use disinfectant cleaner that is effective against a broad spectrum of bacteria. When used as directed, MAR-T54 is virucidal, fungicidal, and it will inhibit the growth of mold and mildew and their odors.

MAR-T54 is used as a full-strength disinfectant on hard, non-porous surfaces. MAR-T54 will not leave a grit or soap scum. It is a no rinse disinfectant that cleans, disinfects and deodorizes in *one labor saving* step.

Whereas cross contamination is a major housekeeping concern, MAR-T54 has been formulated to aid in the reduction of cross-contamination on treated surfaces, not only in hospitals, but also in schools, institutions and industry.

BACTERICIDAL: MAR-T54 is bactericidal according to the AOAC Use Dilution Test method on hard inanimate surfaces, modified in the presence of 5% organic serum against a variety of bacteria, both gram-negative and gram-positive.

VIRUCIDAL: MAR-T54 was evaluated and found to be effective in the presence of 5% serum and 400 ppm hard water on hard, non-porous environmental surfaces against a variety of viruses, including HIV-1 (AIDS virus), Herpes Simplex Type 1 and Herpes Simplex Type 2.

PROPERTIES:

Class	Quaternary Ammonium Compound
Color	Clear to amber
Odor, wet	Mild
Odor, dry	None
pH	6 - 9
Weight per Gallon	8.333
Solubility in water	Soluble
Viscosity	Water
Application	Cloth Wipe Brush Coarse Spray Mop
Storage	34° F to 100° F

Use this product on hard, non-porous surfaces only. Consult Material Safety Data for additional information. Do not dilute this product. Follow label directions for proper usage.
